**VIKRE**  
DISTILLERY

DULUTH, MN

Vikre Distillery is a love story, a craft distillery founded on the love of Lake Superior, the northwoods, and creative flavors. Vikre was founded in 2013 by Emily and Joel Vikre. We make delicious spirits - including organic gin, organic aquavit, and whiskey - delectably inspired by a sense of place plus creative modifiers that balance tradition and innovation. We also make delightful ready to drink canned cocktails of exceptional quality. The Vikre facility is zero-waste (our whole operation makes less trash per week on average than the average American individual), uses a closed water process loop to reduce water usage, sources all local grains and uses a combination of foraged and organic, fair-trade botanicals.
